FINANCE AND COMMERCE.

WASHINGTON, Friday Evening, July 30, The market for District 3-55's was quite active to-day, owing, perhaps, to the close approach of interest day. The business reported aggregated nterest day. The business reported aggregated arry \$60,000, of which Mesers. Sherman & Grant m 'arly \$00,000, of which Messrs. Sherman a Grant sola \$29,000 at 725/26729/c. It is proper to note here emph. 'deally that the law authorizing the issue of these bonds and their guarantee by the Government p. 'acce no limit upon the amount of this loan other h. and the necessities which the bonds are prescribed to fill. It should also be noted with corresponding a uphasis that the Treasury Department has seen, 's no order either to the Loan or Register's offices the utiling the amount which may be registered upon the books of the Treasury. The growing populse, by of these securities is largely attributed to the fact that they are made to run firty years without optional redemption within a shorter period. There is no other class of Government securities, except some guaranteed railway bonds, which possess this desirable feature. Investors in District 3-55's at present feature. Investors in District 3-55's at present rates practically secure a Government guarantee of annual interest of upwards of h've per cent. upon their money for the period of fifty years free of all taxation. National, State and municipal, In Governments a steady market may be noted with moderate transantions only, as most of those who have means are now absent on their summer

vacations.

The recent suspensions in New York do not appear to affect any of our local houses. The New York press continues its marvelous gossip about assets, liabilities and securities of letters of credit to travelers, astors and others, but no great religi ance should be placed upon any premature statements. It is protty safe to assume that the failure of a heavy house is a bad one or its credit, would have been maintained, especially at a time when money is as plenty and chear) as at present. There was no panic or feeling of general distrust to precipitate these failures. Cansequently they may be assumed to have been caused by the inherent weakness of the firms which have gone under. They were too much extended for their means, and had doubtless met with large loss in some of their speculations.

some of their speculations.
